**INTRODUCING The SanDisk
Ultra II Product Family**

Rapid Speed for Action Shots

SanDisk 

it's all about **SPEED** - SanDisk Ultra II
is Ready for
Rapid-Fire Shooting

The Faster the Action... the Better We Perform

Face it, today's digital photography is all about speed. The speed to capture that "once-in-a-lifetime" shot. The speed to take more shots in less time. And the speed to transfer large image files faster to your PC. If pure speed is important to you, then get ready to fasten your seat belt. The new SanDisk Ultra™ II product family is designed to blow you away!

SanDisk ultra II

New SanDisk Ultra II CompactFlash® cards have a minimum sustained write speed of 9 megabytes (MB) per second and a read speed of 10MB per second. Get faster speed for all the things you do:

- Faster write speed means less time between shots.
- Ready for rapid-fire shooting.
- High-density flash memory and optimized controller technology let you save large image files faster.

Superior Performance for Advanced Digital Photographers

In the fast-paced world of digital photography, you rely on your camera and its capabilities. You also rely on your CompactFlash and SD cards to be fast, reliable and compatible with your camera. To meet the needs of professional and advanced photographers, SanDisk has developed new, optimized flash cards that:

- Take advantage of the advanced features of high mega-pixel digital cameras.
- Deliver superior speed. Now you can capture those high-resolution images even faster!
- Do it all with lower power consumption, which means longer battery life.

SanDisk Ultra II cards are ideal for your most demanding photo shoots, including photo journalism and event, sports, nature and fashion photography.

Lower Power Consumption

New SanDisk Ultra II CompactFlash and SD cards minimize power consumption to maximize your camera's battery life. So you get more shots per battery charge.

Operating Voltage Range Summary

Product	Voltage
CF/PCMCIA	3.3V and 5V
SD	2.7V and 3.6V

SanDisk Quality and Reliability

SanDisk is the worldwide leader in flash memory cards. New SanDisk Ultra II CompactFlash and SD cards are designed for heavy usage by professional and advanced digital photographers. Plus they're covered by a lifetime warranty!

100% Compatibility Today

SanDisk Ultra II CompactFlash cards are fully compatible and interchangeable with all CompactFlash digital cameras, card readers, and adapters that comply with the CompactFlash specifications. SanDisk Ultra II CompactFlash cards are also compatible with other CompactFlash digital devices such as handheld PCs and

digital audio players (MP3). SanDisk Ultra II SD cards are compatible and interchangeable with all SD digital cameras, card readers, and adapters that comply with the SD Standard, and will also work with other SD devices.

Picture This... You Can Store a Lot of Pictures on a SanDisk Ultra II Memory Card

Uncompressed Images per Card

Camera	Card Capacity			
	*Avg. Image Size (MB)	256MB	512MB	1GB

PC Card Adapter Turns Your CompactFlash Card Into a PC Card

Need to use your Ultra II CompactFlash memory card with your laptop? SanDisk makes it easy with the new Ultra PC Card Adapter. Simply insert your CompactFlash card into the PC Card Adapter and it quickly becomes a PCMCIA-accessible "plug and play" memory card. The SanDisk Ultra PC Card Adapter is fully compatible with any device that features a Type II PC Card slot, including laptops, notebooks, digital printers and kiosks. And the SanDisk Ultra PC Card adapter is backed by our 2-year warranty.
